ENGINEERING AND MANUFACTURING TRANSFORMATION

Transforming potential. Delivering value.

Independent senior leadership for organisations facing complex ERP, PLM, CRM, supply-chain and operating-model change.

Heath Tipton | ChMC | MCMI | BSc (Hons) | PMI

30+	2,500+	£750k	12
years leading change	users enabled	recurring annual benefit	business domains transformed

CAPABILITY

Senior ownership where change crosses the organisation.

01 Transformation leadership

Programme direction, executive alignment, governance, value-case control and mobilisation from ambition through measurable delivery.

02 ERP, PLM and CRM

Independent leadership connecting process, data, platform, partner delivery, adoption and operational readiness.

03 Process optimisation

Evidence-led current-state discovery, target operating models and controlled execution across organisational boundaries.

04 SME value creation

Practical operating-model change that reduces founder dependency, strengthens control and improves scale or exit readiness.

ENGAGEMENT MODELS

Transformation Director | Programme Director | Independent Adviser | Fractional or Interim Leadership

SELECTED DELIVERY

Evidence, not theory.

National innovation organisation

Dynamics 365 ERP and CRM across 12 domains and 1,100+ users. Delivered to the day and 10% under budget.

Global industrial equipment manufacturer

£1m, three-year PLM transformation for 300 users in four countries, generating £750k recurring annual benefit.

Global defence and aerospace prime

Siemens and SAP supply-chain analysis that helped shape a programme targeting £1bn in efficiency improvement.

UK volume automotive manufacturer

Programme-critical PLM and DELMIA recovery that passed mandated gateways and delivered on time.

International engineering consultancy

Created the UK Digital Manufacturing and Engineering practice and secured aerospace and automotive engagements.

UK Tier 1 aerospace manufacturer

Eight connected PLM and supply-chain projects spanning design-to-manufacture and maintenance information control.

“Heath brings a rare combination of strategic vision and deep technical understanding.”

Wesley Cassells
Professional recommendation, April 2025

WHY ANVILTEC

Independent judgement. Direct accountability.

AnvilTec works on the client side, protecting the business outcome while strengthening the organisation that must sustain it.

+ Evidence and business value before software or supplier preference
+ The senior leader introduced at the outset remains directly engaged
+ Governance, methods and ownership designed to transfer capability
+ Confidential handling of client identity and sensitive programme detail
+ UK-wide support from Worcestershire, with deep Midlands manufacturing experience

Start with a focused tran sformation diagnostic

A 10-working-day review producing executive findings, a constraint heatmap and a prioritised 90-day action plan.
