ENGAGEMENT MODELS

Start at the level the evidence and urgency require.

01 Focused diagnostic

A defined evidence-led review producing executive findings, a constraint heatmap and a practical 90-day route forward.

02 Programme assurance

Independent client-side assessment or recovery across governance, process, data, technology, suppliers and readiness.

03 Fractional leadership

Flexible Transformation Director capability without the cost or commitment of a permanent appointment.

04 Interim programme leadership

Direct leadership of complex transformation through mobilisation, delivery control, adoption and transition.

COMMERCIAL PRINCIPLES

A straightforward route from first conversation to controlled delivery.

+ A concise written scope covering outcomes, deliverables, assumptions, dependencies and governance before work begins.
+ Fixed-fee, fractional or day-rate structures selected to fit the engagement and level of uncertainty.
+ Transparent progress, decision, risk and benefit reporting focused on the client business outcome.
+ Knowledge transfer and internal capability development built into delivery.
+ Independent advice with no software, supplier or implementation-partner commission.

MOBILISATION

Typical route to engagement

1	**Fit conversation**	Confirm the challenge, decision, timing and whether AnvilTec is the right fit.
2	**Evidence and scope**	Agree evidence access, stakeholders, outcomes, deliverables and commercial basis.
3	**Contract and governance**	Complete proportionate procurement, confidentiality and governance arrangements.
4	**Mobilise**	Begin with agreed owners, decision cadence, measures and immediate priorities.

PROCUREMENT INFORMATION

The essentials for internal review.

Legal entity
